FiTech Handheld User Manual - FiTech Fuel Injection

Ignition Key must be ON to allow this to occur – otherwise it will not send the changes. Most changes can be done on the fly. All changes are permanent after the key is turned off for about 10 seconds (the ECU goes through an IAC reset, and then does the memory rewrite. Some special modes are not saved –

Change Management Toolkit - University of California, Berkeley

Switch, peoples' brains have two independent systems at work at all times: the rational side (is reflective, it deliberates, analyzes, and looks to the future), and the emotional side (is instinctive, feels pleasure and pain). Think of the rational side of the brain as the Rider and the emotional side of the brain as an Elephant.
